Dear Honorable _____,
(name of Congressperson)

I am a resident of your district and I believe that there has been no greater invention than the free and open Internet. Unfortunately, on December 14, 2017 the FCC voted to remove protection for the free and open Internet against the wishes of over 80% of the American population. This was an overt slight to the people of this great nation. We are supposed to be a government of the people, by the people and for the people, but this action proved, beyond a shadow of doubt, that that sacred covenant has been broken.

I am writing you to voice my disapproval of the FCC's vote to repeal net neutrality and respectfully urge you to introduce and/or support legislation to use the Congressional Review Act to overturn this ruling. I further hope that you become a champion among your peers for this cause and work hard to help ensure that these measures pass your house of Congress with at least a 2/3 majority, to bypass any possibility of a Presidential veto.

Taking on this fight for the American people will show us that you are a serious advocate for your constituency, who overwhelmingly demand that action be taken. Please help us regain some trust in those who are tasked with leading us. Help us ensure that the free and open Internet is restored and protected for our future generations. Help to restore the precious covenant broken by the FCC. Please, help us be vigilant so that our government of the people, by the people, and for the people shall not perish from the Earth.

Thank you and have a wonderful day!
